- ❑ Indian Self Determination and Educational Assistance Act, (P.L. 93-638, as amended)
- ❑ OMB Circular A-133 (*Regulations for Single Audit Act*) and OMB Circular A-87 (*Cost Principles*)
- ❑ 43 CFR Part 12, (*Administrative and Audit Requirements and Cost Principles for DOI Programs*)
- ❑ 5 IAM 2 Indian Affairs Manual, Management Accountability, Single Audit

What is an Audit?

- In general terms, an audit is independent and systematic assessment of an organization's financial position, accounting systems (including internal controls) and compliance with laws and regulations.
- The auditor examines, on a test basis, transactions, supporting documents and disclosures to the financial statements.
- The audit is meant to **provide reasonable assurance** that the financial statements are free of “**material misstatements.**”

SINGLE AUDIT BACKGROUND

- ❑ Approximately sixty percent of Bureau of Indian Affairs annual budget is expended through contracts, compacts, and grants with Indian tribes and tribal organizations.
- ❑ The single audit is the primary mechanism used by Federal agencies, including the Bureau of Indian Affairs, to ensure accountability for Federal awards.

SINGLE AUDIT ACT OF 1984

- ❑ The Single Audit Act of 1984 reduced the burden of numerous audits.
- ❑ Provided for at least one annual comprehensive audit.
- ❑ Ensured that audits of federal programs were performed under uniform audit requirements such as Generally Accepted Accounting Practices(GAAP), Government Auditing Standards, or Federally Accepted Accounting Practices.

Single Audit Act Amendments 1996

- The amendments authorized OMB to reassess and adjust the threshold amount periodically, provided that the amount was not less than \$300,000.

OMB has subsequently increased the threshold amount. For fiscal years beginning after December 31, 2003, the threshold increased to \$500,000.

- It allows OMB to conduct pilot studies to test alternative procedures.

Single Audit Act Amendments 1996

❑ Improved timeliness and content:

- Report due date shortened from 13 months to 9 months after the close of a recipient's fiscal year, *and as of this year, extensions are no longer accepted.*
- Requires a summary of audit results and a data collection form.
- Requires a separate schedule of current year findings and questioned costs.
- Requires a separate schedule on the status of prior year findings.

Single Audit Act Amendments 1996

❑ **Provided incentives:**

- An organization can earn “low risk” status; The 25% rule (percentage of audit coverage) thus reduces the number of programs that must be audited and reduce the cost of the audit.
